

# STATION STREET RECONSTRUCTION PROJECT

For Immediate Release  
February 15, 2018

## Fairview Road to Bank Avenue

The Town of Oliver has hired Grizzly Excavating Ltd. to undertake water, sewer, storm water and road upgrades; starting on Fairview Road and with the majority of work continuing on Station Street starting February 15, 2018, and continuing to June 2018.

People will experience traffic disruptions and some temporary road closures throughout the projects duration. Inclement weather can also affect some scheduled timelines.

Grizzly Excavating Ltd. will be working directly with local business and property owners affected by construction to accommodate pedestrian and vehicle access. We ask that people be patient and help support the local businesses during this project.
