

## VEHICLE BRIDGE MAINTENANCE

**For Immediate Release**

### **Fairview Road Bridge Maintenance**

The Town of Oliver has hired SCR Contracting Services Ltd. to undertake some bridge deck and expansion joint maintenance work that started the week of April 10, 2017. The work will continue as the weather permits and should be completed within the next two weeks.

The Fairview Road Bridge maintenance work involves compression seal joint & intermediate joint sealing, joint cleaning and surface deck restoration.

People will experience traffic control entering the bridge, as well as lane control, slow-downs and temporary shut downs for the duration of the project.

We ask the public to be patient and courteous towards the traffic control as this work helps to improve and prolong the health of the bridge.

For more information, please contact the Town of Oliver's Public Works Office at 250-485-6213.
