RE: Request for Quotes: Structural Protection Equipment

To Whom It May Concern:

The Town of Oliver is seeking quotes from prospective suppliers/vendors to provide a quote for structural protection equipment (phase one/1). This is additional information about the request for a quote:

- Please provide a written quote by November 17, 2023 at 11:59:01 p.m. (Oliver local time) to [FireSmart@oliver.ca](mailto:FireSmart@oliver.ca).
- The Town will require the equipment to be delivered no later than May 31, 2024 to the Town of Oliver. Please include an anticipated delivery date in the quote.
- Please quote in Canadian Dollars.
- Please confirm the price is valid/held for a minimum of ninety (90) calendar days.
- Please see the attachment for specific equipment. The quote must be for all of the equipment outlined for Phase 1 completion, in the quantities provided in the attachment.
- If you are able to provide only some of the equipment, please clearly indicate this in the quote.
- Please note that all of the equipment must be approved by the Province of British Columbia's Structural Protection Coordination Office prior to delivery. The Town will coordinate this approval process.
- Quotes will be evaluated based on price and anticipated delivery date.

Please do not hesitate to contact me if you have any questions.

Thank you,

Kai Kaplan  
FireSmart Coordinator

**Structure Protection Trailer  
Inventory Form**

## Phase 1 Start up

It is recommended that in this phase applicants commit to completion of a FireSmart Structure Protection Trailer and purchase initial equipment (limited to Table 5), start the process of requesting Structure Protection Community Assessments (contact the Structure Protection Coordination Office at [SPCO@gov.bc.ca](mailto:SPCO@gov.bc.ca)) and train staff to support a structure protection program (see training section below and refer to Table 1 for training that is eligible for funding). Phase 1 was designed to ensure that a community would have a functional set of structure protection equipment while they build their overall structure protection program.

For the purpose of funding, the following are not eligible as Phase 1: Start Up expenditures: mixed oil 2 cycle, chain oil, tape (duct, Teflon or electrical), and rags.

Table 5: Eligible Activities for FireSmart Structure Protection Phase 1: Start Up			
Category	Item	Quantity	
Pump	Mark 3/Wick 75	2	<input type="checkbox"/>
	Pump Tool Kit	3	<input type="checkbox"/>
